PROFESSIONAL EXPERIENCE

Software Developer

09/2025 – Present | Surat

LogWinTech Pvt. Ltd.

Project: Conservice – Single Family Activation

- Worked as a Frontend Developer on the Cinservice Single Family Activation platform, responsible for building and enhancing multiple core modules using **Next.js**.
- Contributed to the development and maintenance of key features including **Locations, Cases & Tasks, Company Management**, and other operational modules. Implemented several **performance optimizations**, especially for **listing views**, improving load time, rendering efficiency, and overall user experience.
- Collaborated closely with backend and product teams to integrate APIs, handle complex data flows, and deliver scalable, user-friendly interfaces. Also involved in fixing production issues, improving UI consistency, and adding new functionalities based on business requirements.
- Implemented **reusable components and common UI patterns**, improving code maintainability and reducing duplication across modules.
- Actively participated in **feature enhancements, bug fixing, and code reviews**, ensuring stable releases and better overall application quality.

Associate React.js Developer

11/2023 – 08/2025 | Surat

Instance IT Solutions

Project: Bizcompass – Business Process Automation Platform

- Worked as part of the frontend team on multiple core modules, including Project Management, Recruitment, Payroll, CRM, People and Support.
- Took key responsibility in developing and maintaining features for the Project Management, Support Ticket, and Reports modules.
- Worked extensively on Task management features in Project Management enhancing features like task timer tracking and status updates, while also designing and developing several new features to improve workflows.
- Restructured the entire Reports module to improve flexibility and reusability also developed numerous complex reports from scratch, focusing on dynamic data visualization and user friendly interfaces.
- Built and optimized reusable React components to maintain a consistent UI and accelerate development across the platform.
